

Q.NO.	QUESTION	OPTION 1	OPTION 2	OPTION 3	OPTION 4	ANS
1	Physical object + Controller,Sensor and Actuator + _____=Internet of Things.	Internet	Electronic	Information	Intranet	1
2	What is the full form of UBICOM?	Uniform Computing	Universal Communication	Ubiquitous Computing	Uniform Communication	2
3	UDP is an acronym for _____.	User Delivery Protocol	User Datagram Procedure	User Datagram Protocol	Use Datapack protocol	3
4	Which protocol assigns IP address to the client connected in the internet?	DHCP	IP	RARP	ARP	1
5	MAC address is of _____ bits.	24 bits.	48 bits.	96 bits	100 bits	2
6	The secure (encrypted) HTTPS usually runs on _____ port.	port 80	port 934	port 443	port 08	3
7	Voice over IP (VoIP)—computer-based telephony, such as Skype is an example of _____	IP	TCP	UDP	DNS	3
8	IPv6 uses _____ addresses.	128 bit	64 bits	32 bits	16bits	1
9	It is a set of rules for communication between computers?	Protocol	Drivers	Routers	Gateway	1
10	Sensor is	A device that responds to a physical stimulus	Have their own transmitter and power source	Hypertext transfer protocol	That shows its immediate reaction	1
11	When the appearance of a specific control suggests its function, it is called _____	Affordance	Deffordance	Graceful degradation	Progressive enhancement	1
12	Which of the following is not a type of RFID ?	Active	Passive	Fully passive	Semi passive	3
13	A way by which older devices can still read newer formats is called as _____.	Graceful degradation.	Forward compatibility	Progressive compatibility	Enhance compatibility	1
14	Which of the following is a mobile protocol?	HTTP	HTTP	UDP	WAP	3
15	Which of the following gadget was used to track the location of the members of Weasley family.	WhereDial	Bubblino	Live Wire	Beaglebone	1
16	The first IOT device which was twitched whenever a packet of information used to send across the network.	Where Dial	Bubblino	Live Wire	Beaglebone	3
17	Which of the following technology don't compete for attention yet are ready to provide useful information whenever asked.	Calm Technology	Modern Technology	Embient Technology	Ubiquote Technology	1

18	Which of the following enchanted object is related to “Mirror mirror on the wall, who’s the fairest of them all?”	Snow White’s wicked stepmother’s mirror	Aladdin’s magic carpet	Doraemon’s secret pouch	Harry Potter’s where dial	1
19	Which of the following in reality is connected to the the “Flying Carpet” in story?	Bicycle	Aeroplane	Ship	Bus	2
20	In Internet of Things, which of the following is connected to the internet?	Computer	Tablet	Mobile phone	A wooden chair	4
21	_____are the way of getting information into your device.	Printer	Sensors	Monitor	Speakers	2
22	_____are the examples of Sensors.	Electric Motor	Piezoelectric.	IR Sensor	Solenoids	3
23	_____are the engines of countless sensors and automated factory machinery.	Microcontroller.	Switches	Hub	Routers	1
24	Arduino consists of _____microcontroller.	CPU	Memory	AT mega 328	RISC	3
25	RAM size of Raspberry Pi:	1 KB	512 MB	64 KB	128KB	2
